ODOSDESIGNSpain

Luis Calabuig, María Mengual and Ana Segovia studied Industrial Design together at the Universidad Politécnica de Valencia. After graduating in 2001, they worked in different national and international companies and studios, until they set up Odosdesign in 2005.

This valencian studio sees the design of new products “as an ongoing daily process, as a reflection on the different lifestyles and the needs that each of them entails. We are influenced by everyday experiences. We watch everything around us and analyze how we react to these things, since our future designs will also be around us and will become part of our reality”.

They have received prizes like INJUVE 05 to the best professional development, Grand Design Award in Londres 2007, Delta selection 2007, Gioia Casa Award 2007 and silver medall ADCV.

Companies like VICCARBE, Gandia Blasco, Bancaja, Sancal, Mobenia, Cambrass, do+ce, Babidu or Koo-International are among their clients.
